## Spring Snow Ski Festival To Be Held

A "Spring Snow Ski Festival" is to be held at the Grayling Recreation Area (Winter Sports Park) Sunday, March 28th.

An atmosphere of fun and gaiety will prevail. It's to be a costume affair. Prizes will be awarded for the funniest garb worn by a boy, a girl, a man and a woman.

The event is an opportunity to show one's initiative in making original and comic costumes. Attend and join in the merriment.

In connection with the festival, the annual Vernors' Couples' Race will be staged at 2:30 p. m. This is an obstacle race. A trophy will be awarded to the winning couple, furnished by the Grayling Bottling Company. All interested are invited to take part.

HARRY TRAVIS, park manager, tells us snow conditions are excellent this week. Skiing is as good or better than it has been all winter.

According to weather reports, Sunday should prove a perfect day, weather-wise, for the festival.

## Iatrophobia? Here's a Cure

Do you have iatrophobia? It's not a serious disease. It's easy to cure. But too many people have iatrophobia means fear of going to the doctor. The cure? Picking up the phone and making an appointment with your doctor for a complete physical checkup.

If Americans with iatrophobia would only take the cure, 92,000 lives could be saved from cancer this year which otherwise will be lost. These deaths are caused as much by people's attitudes as by cancer. Too many people whose cancers could be cured wait too long to call their doctors. They don't know that cancer can be cured if it's found early and treated promptly.

The American Cancer Society has mobilized a neighborhood army of over 2,000,000 volunteers to reach people with this vital message — see your doctor once a year for a checkup and be alert between checkups to Cancer's Seven Danger Signals.

When a pint of blood is needed the only person who can assure that there will be sufficient blood in the bank is you. That gives you a responsibility toward yourself and your community that you should not shy away from. Be a Blood Donor and be a giver of a very precious gift.

IF YOU ARE NOT contacted and want to give, please call me. The Bloodmobile will visit us on April 12th. It takes a lot of work and planning to make a successful Bloodmobile visit and no matter how much work is done it all de-

## BRUCE SMITH RETIRES

### Dean Of NMCCC Cage Coaches Decides To Hang Up Whistle

Bruce Smith, Grayling High basketball head coach for the past seventeen years and dean of the cage mentors of the Northern Michigan Class C Conference has decided to call it quits as the 1964-65 season comes to a close.

SMITH, who also serves as Athletic Director for the Grayling Vikings, will continue in that capacity and also will assist in the coaching of golf as well as continuing his teaching chores. But come next hardwood season, a new mentor will steer the destinies of the green and white clad Vikings.

Following an outstanding career in athletics at Mancelona High School, Smith attended and graduated from Central Michigan University, Mount Pleasant, where he set several field house records in track events. He taught and coached his first year, 1941, at Lake Linden High in the far upper reaches of Michigan's Copper Country in the Upper Peninsula.

From Lake Linden, he entered the armed services during World War II and served three years. On his honorable discharge from Uncle Sam's employment, Smith became head basketball coach at Merrill High near Saginaw. He remained there three years until coming to Grayling 17 years ago.

Over the twenty-one years of coaching basketball, Smith-taught teams have run up a fantastic record of 275 victories against 123 losses. Among their other accomplishments have been championships in five Christmas tournaments, two conference titles, six District Tournament Championships, three Regional titles and two Quarter-Final victories in State High School Basketball Tournament play.

His record in the Northern Michigan Class C Conference is also outstanding. Only one team, the Charlevoix Rayders, holds more victories over Grayling than losses. That mark is 13 wins for the Vikings 16 for Charlevoix.

## Hold Banquet For Peanut League Teams

One hundred-fifty parents and players in the Peanut League gathered in the Elementary School multipurpose room Friday evening for a pot luck dinner, which had been planned by Mrs. James Bassett, Mrs. Marvin Hallett, Mrs. Don Legg, Mrs. Clarence LaMotte, Mrs. Franz Kersch and Mrs. Larry McNamara.

Following the excellent meal, ribbon awards were made to the first-place Red Purple Peanuts, Eaters and White Knights, to the third-place Blue Eagles, and fourth-place Red Wildcats.

Principal Arthur Thayer presented the ribbons to coaches of respective teams, Edwin Funk, Jim Bassett, Carroll West-substituting for Dewain Hall and Derek McEvers in place of Norman Sorenson. The coaches in turn presented the ribbons to the players.

MR. THAYER also introduced coach Claire Melroy and his Green Hornets, Bill Holzman and his Brown Cubs, Claude Halstead and his Black Widows and Franz Kersch and his Yellow Panthers.

Thayer wishes to express publicly his thanks to all those who helped in any way, the coaches, officials, timers, scorekeepers, without whose assistance the program would not have been the success it turned out to be.

## DEPENDENTS

The greatest number of exemptions for dependents on tax returns are for the children of taxpayers. Questions are often asked concerning those children who have income of their own.

If your child has earnings of \$600 or more and is under the age of 19, or is a student, the exemption may still be allowable. You must have contributed over 50 percent of the support of the child in order to claim the exemption.

If your child has income during the year and used it for his support, you must consider that income in determining whether or not over 50 percent of support was contributed by you. If the child saved his income or invested it in a capital asset, those amounts are not considered as being used for support.

"OVER 50 PERCENT OF THE support," refers to the cost of support and not the period of time support was furnished.

Another thing to remember is, if you have a child who had earnings of \$600 or more during 1964, he must file his own tax return.

An exemption of \$600 is allowed for a child born alive during the year if the dependency tests are met. This also applies to a dependent who dies during the year.

If additional information is needed, it may be obtained by calling your local I. R. S. office.

## Local Hospital To Mark 50th Year of Group

Mercy Hospital will join more than 1,500 Catholic hospitals, nursing homes, schools of nursing and affiliated organizations throughout the U. S. and Canada in observance during 1965 of the fiftieth year of service of the Catholic Hospital Association of the U. S. and Canada. The announcement was made by Sister Mary Janice, R.S.M., Administrator of Mercy Hospital.

The Catholic Hospital Association was organized in 1915 by and for the Catholic hospitals of the U. S. and Canada to assist them in reaching their goals as Catholic institutions, to develop educational and service programs and to co-ordinate information about Catholic hospitals.

The Association is devoted to the promotion of the Christian ideal of caring for the sick and its program stresses the religious and moral motivations in hospital care. It sponsors educational programs throughout the year in major cities to promote professional excellence. These are buttressed by publication of HOSPITAL PROGRESS, its official journal. The Association is basically a service organization for its members.

HIGHLIGHT of the year-long observance, devoted to the theme of "The Past... a Prologue" will be the Golden Jubilee Convention to be held in St. Louis from June 8 through 11. Other events and projects for the jubilee year anniversary include exhibits and local celebrations by the member hospitals and affiliated groups.

A Golden Jubilee Year Committee, made up of 48 clergy, religious and lay members representing all sections of the U. S. and Canada, has been organized to serve as an advisory and liaison board for the fiftieth year activities.

## Mrs. Celia Granger Observes 90th Birthday on Sunday, March 21st

Mrs. Celia Granger observed her ninetieth birthday anniversary on Sunday, March 21, 1965. In honor of the occasion her daughter and husband, Mr. and Mrs. U. Harley Russell, held an open house in the afternoon, and fifty-five friends, neighbors and relatives came to express their best wishes and present gifts.

The refreshment table was covered with an Italian network cloth. It was graced with a beautiful arrangement of snapdragons, pink carnations and white chrysanthemums flanked by silver candelabra holding pink tapers. Mrs. Augustus Funck, Mrs. J. L. Martin, Mrs. T. Peterson, Mrs. Glen Nolan, Mrs. George Hilton and Mrs. Carl Hanson presided at the silver tea service. Mrs. Wilhelm Raue and Mrs. Thomas Haug assisted.

MRS. GRANGER was born Mar. 21, 1875 in Nankin Township, Wayne County, to Amos and Sarah Jane Corwin. When she was about 16 her family moved to Crawford County to the property where Charles Corwin now resides. Celia, however, remained with cousins in Plymouth, in order to take a dressmaking course. When about 18 she also moved to Crawford County and built up a dressmaking business, visiting people's homes and doing the sewing there as used to be the custom.

Celia Corwin was married to George Granger on December 31, 1895. Mr. Granger's parents owned the adjoining farm in Nankin Township when both families lived there. After their marriage, the couple lived for three years in the upper peninsula. From there they moved to West Virginia, then to Harvey, La., across the river from New Orleans, and finally to Hight, Mississippi. During these years four children, Howard, Isa, George and Helen, were born. Mr. Granger died in June of 1909 in Mississippi. Following his death his widow and children moved back to Grayling to be near relatives, and she resumed her dressmaking.

She lived for ten years at 708 Maple street before moving in 1919 to her present home at 708 Chestnut street, where she continued another ten years with her dressmaking. She then turned to taking

## Grayling Quarter Final Victor Dumped In Semis

The Wakefield Cardinals, Class C Champions of the Upper Peninsula, had little trouble in the Grayling High gym last Wednesday night in edging the Charlevoix Rayders, champions of the Northern Michigan Class C Conference and Class C champs of the northern Lower Peninsula.

Muskegon Christian went on the next day to win the State Class C Championship. Wakefield held the high flying Warriors to six points only in the first and third quarters but the eventual champions hit for 28 in the second and 26 in the fourth periods to reap the victory.

THE WARRIORS had three men in double figures with Tubergen with 17, Van Dyke 15 and Patenga 10. Wakefield put four players in double figures with Smith leading the way with 18, Frank 12 and Inkala and Koski with 10 each. ## Grayling Choir To Perform At Choral Festival

On Saturday, March 27, Catholic Central High School in Alpena will provide the setting for the Michigan School Vocal Association's District IX Choral Festival. Grayling High School Choir will be one of some 20 high school choruses who will present their musical organization for a rating before an adjudicating committee of distinguished judges from Michigan.

EACH participating chorus must sing a previously selected required number as well as one of their own choosing. Three of the four judges will determine the quality of each number presented through a rating scale of 1 through 5, 1 being superior. Sight-reading is also an integral part of the competition. Each group will attempt to sing music not previously seen. The fourth adjudicator will then determine the ability of each chorus in performing the new numbers.

THE CLIMAX of the days events will be open to the general public. Some of the choirs that receive exceptional ratings during the morning will be asked to contribute to an hour program of choral music, climaxed by a Massed Chorus of some 800 chorists performing selected works under guest conductor, Mr. Floyd Heydenburg of Central Michigan University.

The concert will begin at 3:00 p. m. at the Alpena Catholic Central High School auditorium. Admission will be 50 cents.

## Meet to Discuss A Community College in Area

School administrators and board members will meet in Grayling, Thursday evening at eight o'clock at the elementary school to further discuss the need for a community college to service Ogemaw, Oscoda, Roscommon and Crawford Counties. Dr. Max Smith of Michigan State University is to be present.

The community college was first conceived as a junior college by such men as Henry Tappan, President of the University of Michigan, and William Harper, President of the University of Chicago, as early as 1890, the first being established in 1901 at Joliet, Illinois. Michigan entered the junior college movement in 1914 with its first junior college at Grand Rapids, under the Grand Rapids Board of Education.

IT WAS NOT until recently that much attention was focused toward junior colleges, or should we say community colleges. In the beginning they were truly junior colleges, offering the first two years of a four-year college program. Until World War II colleges offered basically the same program for the first two years whether a person entered engineering, medicine, music, or any other field. With the advent of World War II and subsequent scientific developments, programs in colleges began changing. The engineering student had a different program for the first and second years than the music major. Technology began showing signs of a great need for men and women who could run machinery, repair it and guide it. The need for a college degree in these fields was not necessary. It was in this area the junior college found itself offering not only pre-college courses but courses designed to train men and women to repair, run and operate the new machines of our society.

IN THE EARLY 50's the junior college began looking at the people (Continued on Page Two)

an age of maturity realizing that  
education in their society is a must  
for survival. A graduating senior  
this June, whether he be from Mio,  
Roscommon, West Branch or De-

will get greater and greater. Com-

this area of education.

## 38 Percent Spent For Crawford County Schools

(Special to the Avalanche)  
NEW YORK — How does the cost of education in Crawford County compare with that in other parts of the country?  
What proportion of local spending is for school construction and maintenance, for teacher salaries and for other school costs?  
As is the case in every community in the nation, from the largest to the smallest, local officials are struggling with the problem of how to provide enough educational facilities to take care of the ever-rising tide of young people.  
A Federal study of expenditures for education, covering every section of the United States, shows that such costs, in general, are more than twice those of any other single function of government.

In Crawford County 38.0 percent of all public spending is for education. In some communities the proportion is somewhat less than that and, in others, much more.  
The average nationally is 44.1 percent. In the State of Michigan it is 47.0 percent.  
The study of local expenditures, made every five years, is based on data compiled by the Census Bureau for its current Census of Governments. The previous one was in 1957.  
The report shows that total spending in Crawford County for all public purposes amounted in the year to \$194.30 per local resident. Some \$73.80 of this was for education.  
The per capita cost of education in other counties across the country averaged \$96.58 and, in those

of comparable size, \$99.65 per capita.  
Enrollment in the nation's schools have been growing by leaps and bounds in recent years. Not only has there been this sharp rise in school population but there has also been an increase in the number of years of schooling per person.  
More youngsters are staying to complete their high school training. Compared with 1950, when only 34 percent of the adult population went through high school, 42 percent are doing so now.  
The new Federal budget proposes financial assistance to alleviate the burden. With strong feelings in Congress both for and against a Government role in education, a drag-out fight is expected.

## CONSUMERS WARNS THE KITE FLYERS

It's the missile season in Michigan, and our young spacemen and spacemen will be on the launchpads all around the state by the thousands.  
Meaning, kids will be flying kites.  
And they won't have nearly the trouble getting their missiles off the ground that the people down at Cape Kennedy frequently encounter.  
Just about every Michigan count-down will end in the skyward soar of a colorful, though modest, man-made missile.  
It's once they're up in the sky that kites become a problem. Not to any real or imaginary enemy, but to the children themselves, and sometimes to the power company.  
According to M. D. Porter, district manager of Consumer Power Company's Cadillac District, youngsters should observe the following rules of kite flying for their own personal safety's sake:  
1. Always use dry string, not wire or anything metallic like gift wrapping ribbon.  
2. Use no metal in kite construction.

3. Fly kites on days when it's not rainy or showery.  
4. Keep off streets and highways.  
5. Keep away from TV and other types of aerials.  
6. Never fly a kite near any kind of power lines.  
If, he adds, your kite ends up in a tree or on a wire, never climb up after it, because of the danger of falling.  
Mr. Porter said kite flying is a joyful pastime if it's done safely, but still every year in Michigan alone there are one or two children who forget the rules and are hurt, sometimes seriously.  
And that, he said, is when the game of kite flying becomes a case of playing with deadly missiles, which is no game at all.

## County Cigarette Bill, \$183,00

(Special to the Avalanche)  
New York — What have residents of Crawford County done about their cigarette smoking since the Surgeon General's report came out a year ago?

Judging from the latest figures on cigarette sales in the area, very little. Most people are smoking as much as they ever did. A few were shocked sufficiently by the report, which warned of the health hazards connected with smoking, to give up cigarettes entirely or to cut down on their use.

Just what happened after the

Surgeon General's findings were announced is brought out by the new figures. They show that sales of cigarettes in the United States dropped 30 percent during the following month.

A short time later, however, the panic over smoking had subsided somewhat and the rush back to cigarettes began. Within a few months, the situation had returned to normal.

Crawford County residents smoked a total of 638,000 packs of cigarettes in the past year, on the basis of regional statistics issued by the tobacco industry and on tax reports from the Internal Revenue Service.

This was at the rate of 199 packs per capita for the entire local population over age 18. In 1963 the average was 200 packs per capita.

By way of comparison, the amount of smoking done nationally was 207 packs per person. The rate in the East North Central States was 202 packs.

Data released by the Department of Agriculture reveals that nearly 495 billion cigarettes were sold in the United States in 1964. This was only three percent less than in 1963, which was a record year.

However, a new report by Surgeon General Luther L. Terry, released last month, expressed some satisfaction with the progress that has been made.

He declared: "If smoking habits had continued at the level of three years ago, there would be about 25 million more smokers today than there actually are."

The population rise would have accounted for a good part of the increase. How much does the average Crawford County smoker spend for cigarettes? Approximately \$55 per year, it is estimated.

For the community as a whole, the annual bill is about \$183,000.

## Biennial Ruckus Over Campaign Spending Spiral Longer This Year

### TOO MUCH MONEY

A biennial ruckus over campaign spending spirals appears to be holding attention this year longer than before, a possible indication there may be some changes made.

Michigan law books for several years have carried a limit on campaign expenditures, but the law was so written as to make it virtually impossible to enforce the limitation.

The Legislature would be the action-taking unit in strengthening the law if any changes were to be made. It is an administrative agency, however, which is now shouting loudest for change.

Grand jury investigation was hinted by some elections officials last year following both the primary and general election campaigns in one legislative district. Initial studies indicated to some members of the Secretary of State's elections division that a clear and provable violation of the spending limit law existed.

Indications of a grand jury call have now all but disappeared and faded into the demands for revision of the expenditure reporting statute.

The law now limits expenses to \$40 per thousand votes cast for governor in the previous presidential year. It also allows any number of separate campaign committees to spend this amount.

Financial support from outside the state in a campaign is totally beyond Michigan jurisdiction. And campaign committees are not required to register in any way, so no one really knows whether all expenditures are ever reported for any given candidate.

With these weaknesses pointed

up this year and in past sessions, it now remains a question of whether the legislators will take action to place effective restrictions on a matter so dear to their own political lives.

### STONE WALLS

Prison facilities and policies at both the county and state levels have undergone considerable change in the past decade, and still more is anticipated in the near future.

Corrections officials now feel that clean, modern jail conditions at the county level are an aid toward rehabilitation of criminals, particularly first offenders.

In the past 10 years some 34 new county jails have been built in the state and another 11 are in the construction or planning stage now.

At the state level, Corrections Director Gus Harrison notes a sharp change in the entire philosophy of penology.

The trend has been toward giving a man a chance while he is paying his debt to society, says Harrison. "Eventually I hope Southern Michigan Prison, the world's largest walled prison, will become obsolete."

More than a third of Michigan's prisoners are now housed outside the walls of the various penal institutions, either in trusty units, farm dormitories or outside camps.

The decade just past has also seen a change in pardon-parole practices, according to the state's top corrections officer.

"On life term prisoners who killed or were judged habitual criminals, we've had about a 99 per cent success ratio in our policy of allowing eventual release," said Harrison. "We also believe in the so-called mercy policy for old men who don't want to die in prison."

With the improved employment situation in Michigan, men ready for re-entry to society can be moved out of prison into jobs faster. The corrections chief said over the past 10 years there was an approximate 10 per cent increase in the probation rate.

### UNLOCKED BARN

Security measures in President Johnson's activities since his re-election have been greater than ever before.

This was particularly noted in the elaborate inauguration plans and structures. It was clear the events of November 22, 1963, are still foremost in the minds of many, at least in Washington.

In Michigan, the immediate impact of the assassination in Dallas was great, but apparently much of the concern has worn off with the passage of time.

Then and again last spring state officers discussed the need for what then Lt. Gov. T. John Lesinski described as a "detailed plan for events in case of a statewide tragedy in any way similar to the assassination of President Kennedy."

Initial suggestions included providing adequate protection for all 20 top state officials and security of Michigan's international bridges, electrical plants, water supplies, and transportation and communications facilities.

To date no steps have been made public to implement such a plan which in December, 1963, seemed so necessary. Additionally no action was taken since the May intrusion into his office by an armed man.

It has often been said people act only in emergencies, but it would be hoped that reaction to such incidents would have by this time have produced some action from Michigan's governing officers.

## Viet Nam Decision . . .

In this imperfect world, there often is a vast difference between what one wants to do — and what, under the drive of circumstances, one must do.

This truism can be applied to the course of events in Viet Nam and Southeast Asia.

Administration policy has been based on containing the undeclared Vietnamese war, with the hope that the South Viet Nam government, with a minimum of American military aid and participation, could win it. Our commitment was to remain a limited one. The conflict was not to be enlarged — or, to use the current word, "escalated." This was Mr. Johnson's position during and after the campaign.

Yet, according to just about every commentator who has been on the ground in Viet Nam, for a long time matters have been going from bad to worse. There are various cited reasons why this is so. One is the instability of the South Viet Nam government. Another is an apparent indifference of the Vietnamese people as a whole, including the army — as opposed to the almost religious fervor of the communist Viet Cong.

Another is the character of the terrain, which heavily favors the guerilla tactics of the Viet Cong. Another has been the tight rein kept on the American command and forces, including the Navy and Air Force.

The Administration's reluctance to extend the war North, with all the possibilities involved, is understandable. No one knows, for sure, if it would lead to the massive participation of China — or even, ultimately, to a thermonuclear holocaust. That reluctance still exists. But the inexorable force of events, it certainly seems, is bringing about major changes in policy and attitude.

The bombings of North Viet Nam have established a new situation. Top level spokesmen have said that these were purely retaliatory moves, made in answer to Viet Cong bombing of U. S. bases in the South. Further such actions, they add, would also be retaliatory in character. The idea is to avoid giving the impression that we are now committed to the hilt and that larger conflict in Asia is inevitable. Yet many people are extremely doubtful if this is now tenable. The commitment, they believe, is of an absolute nature, and U. S. withdrawal is now an impossibility. The President himself, after a bombing, " . . . we shall answer any threat, we shall pay any price to make certain that freedom shall not perish from this earth."

Walter Lippmann has made an interesting point. In his words, "Had the United States refrained from retaliating, the Chinese and their supporters in Asia and elsewhere would have called it a demonstration that the United States is a paper tiger, and that therefore the Soviet policy of peaceable coexistence is unnecessary and absurd. The other side of the calculation was that if the United States reacted, as in fact it did react, it would demonstrate that in Asia the Soviet Union is a paper tiger unable to defend its clients." Either way, purposes of Red China would be served.

Grave decisions must now be made in Hanoi, Peking and Moscow, as well as in Washington. Vast questions of prestige, power and the world's future are at stake.

If the spring breakup comes soon the deer herd in Crawford County will pull through in better shape than in several years. Conservation Officer Lewis Dorman of Grayling reported. According to Dorman and trappers in the county, the deer are looking quite sleek, are moving around, and are more lively than they have been in past years. Some antlered deer were noticed in this county as late as the first week in March this year. Whether this is due to the variety of food available, or the lack of weather cold enough to snap off the horns, conservation officers are unable to say.

Dr. C. G. Clippert has been duly appointed chief of the county emergency medical service. Besides the big job of heading the emergency medical service, Dr. Clippert is called on for many other matters. Tuesday night he lectured for an hour and a half before the first aid class of the County Red Cross. Wednesday night he was the principal speaker at a meeting of the Bay County medical society at Bay City and tonight he addresses

a similar organization at Alpena.

A party was held at the Moose hall Saturday evening honoring Nels Johnson, who expects soon to be called for military duty. In showing their sincere regard for the County Road employees turned out in a body, many of them driving extra miles that they might all be there. And this at a time when tire mileage is being conserved by most everyone. Supt. James Richardson made an appropriate speech and tendered the young draftee a very nice gift on behalf of all the members of the County Road employees. The gift, a fine Elgin wristwatch, is deeply appreciated and may be seen upon the left wrist of its present proud owner, reminding him of the time of day and also of the fine lot of fellows who gave it to him. After the presentation of the gift a hearty lunch was enjoyed, followed by music and songs. Piano and accordion were played by Oscar Borchers and Harry Rhode respectively, and was accompanied by the lusty voices of some of the members.

Chevelle Malibu Sport Coupe

No matter how you look at it, this car makes a lot of sense.

If you're interested in value (and who isn't), the eleven features above give you a good idea why more intermediate-size car buyers are thinking Chevelle.

If you're looking for a wide power choice, Chevelle starts out with a standard 120-hp Six, an ideal city performer. After that you may order from a variety of engines that turn it into an even greater highway performer.

Room? Large door openings. Wide

curved side windows for extra shoulder room. Great front and rear leg room. Those four, five or six passengers have it made. And so do you. Chevelle may seat like a big car but it handles like a smaller car.

Comfort? Thick wall-to-wall carpeting in Malibu models. Foam-cushioned seats. Easy-to-read instrument panel. The whole interior looks like those in cars costing far more.

Come on down to our showroom and take a drive soon. Chevelle begins to make even more sense after you've gone a couple of miles.

## ENJOY CANDY MAKING LESSONS

Crawford County Extension members and friends numbering over ninety, attended the "Art of Candy Making" special lesson given by Mrs. Allie E. Filley of Grayling, on Tuesday, March 16th. This is the second time she had presented her hobby publicly, the first time being to the Future Home-makers Group of G. H. S. a few weeks ago.

The meeting, which lasted about two hours, was held in Room 6 at the Elementary School.

Included in the lesson were instructions for melting chocolate and pouring it into molds and hand dipping some of the confection. Basic recipes for fondant and caramel were also explained. It was pointed out that humidity and temperatures are important factors in candy making as well as the choice of ingredients.

Questions were asked as the lesson progressed.  
SAMPLES of the dipped chocolate candy were given out at the conclusion of the program.

Many chocolate molded Easter bunnies and chickens were on display as well as a sweet chocolate house complete with bushes and fences.

Mrs. Joan Papendick and Mrs. Bea Hildebrand assisted with the program arrangements.

Mrs. Harold Dykema, pub.

# Ranger Explains "How" Of A Timber Sale

"Timber offered for sale by the Bureau National Forest is sold competitively to the highest bidder," said J. K. Adams, Mio District Ranger. "Competitive bidding gives everyone a fair chance to acquire an offered sale."

Ranger Adams described recently how a typical sale of jack pine pulpwood is made. Mio District foresters enter a timber tract and determine sample trees' age. If they are mature and ready to harvest, the number of cords on the sale area is calculated. This is done by measuring various sample trees and projecting their average to the complete area.

With the amount known, the foresters can then mark out the boundary of the sale. At this time they also decide whether the area will be reforested by planting or seeded by Mother Nature.

Next, the timber is appraised and a minimum acceptable bid price per cord set. This is based on average timber harvesting costs of operators in the National forest area. The winning bid must be at this price or above it. The sale is advertised in a local newspaper and a notice is placed in the post office. Bid forms and a sale description are mailed to all interested persons.

Of course, the rest is easy, the highest bidder wins the sale. He signs a contract and sets his men harvesting Michigan's future paper towels, napkins or particle board.

"If no bids are received for a sale, as is the case at times," said Ranger Adams, "the sale can be sold during the following year to anyone willing to pay the appraised price."

Timber sale policy on the Mio District is to offer a variety of sales throughout the forest area so that timber operators in the three county area have an opportunity to harvest timber in or near their locality. Ranger Adams said the sales will vary in size but all will provide employment for local residents and return 25% of the governments sale price to local schools for use on roads and schools.

# MOOSE LODGE ACTIVITIES

At Friday evening's regular meeting, we had one of the largest turnouts this year. It was a very orderly meeting, and a lot of Lodge business was taken care of, along with many questions answered clarified. We would like to see a lot more of this type and turnout at the meetings.

DEPUTY Supreme Governor, Andy Beck was guest speaker at the Legion of the Moose breakfast Sunday, and also at the enrollment Sunday afternoon, that was held in his honor. At the legion breakfast, a By-Laws committee was appointed by the President, Chuck Stoddard. An activities committee was also appointed.

It is expected that Grayling will have the largest representation, and also the largest number of members receiving their second degree at the Legion meeting at Flint on Sunday, April 4th. Grayling will be trying to get the next Legion meeting held here, which will be in July. The next Legion breakfast will be May 2nd at 11:00 a.m. There will be no meeting in April due to the heavy schedule that is already planned.

TWO NEW members were enrolled by the Grayling Degree team Sunday. The new members, Dale Kenyon and Gene Spence, received their pins by their sponsors, right after the enrollment ceremony. Andy Beck gave a very interesting and descriptive talk on the fraternity, Mooseheart, and Moosehaven.

The next regular meeting scheduled for Friday, April 2nd, will be held Saturday, April 3rd at 8:00 p.m. The Lodge election has been approved to be held on Saturday instead of Friday. This will enable more members to vote. The polls will be open until 8 p.m. There will be an officers meeting on Friday, April 2nd.

This Sunday is also an election date, when we elect our State Vice-President for this district at Manistee. We hope Grayling is well represented.

## Ends Coast Guard Recruit Training

Cape May, N. J. (FHTNC) March 5 — Seaman Apprentice Arnold T. Stancil, USCG, son of Mr. and Mrs. Thomas R. Stancil of Lake Margrethe, Grayling, Mich., graduated Feb. 12 from recruit training at the Coast Guard Recruit Training Center, Cape May, N. J.

He will be assigned to one of the many Coast Guard units or to a technical training school.

He will be used in one or more of the major missions of the Coast Guard, law enforcement, search and rescue, merchant marine safety, aids to navigation and military readiness.

## Letters To The Editor

March 12, 1965

People of Grayling:

Have you ever walked through drug stores, grocery stores or other places where our youngsters meet during the year? Well, if you haven't, let me tell you what's becoming more and more frequent in many of them.

When a town is especially concerned about its young people, usually the people of the town do all they can to preserve the integrity and goodness of those young people so that someday they can be proud of the wholesome American citizens it has provided. Every merchant is on guard to protect children from any merchandise which may be harmful to them. Clubs and activities are organized to help them enjoy each other in a wholesome way.

Now take a look around. How many people in Grayling protest the presence of indecent literature in our stores? How many merchants refuse to degrade the quality of their establishments by supporting and displaying suggestive books and magazines?

The presence of such items is on the increase in our town. And our young people are the most tempting target of all for marketers to sell these things to. Did you know that last year's sales of pornography came to three billion copies? Do you realize that 75 percent to 90 percent of all filthy, pornographic literature ends up in the hands of children? Juvenile Court Records show that the majority of young people in trouble are so partly because they have sometime been contaminated by contact with cheap reading. If their minds are constantly fed with this, they soon accept such behavior as normal.

Come on Grayling! The young people in Grayling are ours. The least we can do is see to it that they have good, wholesome books and magazines to read. Let's replace the filthy, pornographic literature now available to them with something that will broaden their minds and help them build strong characters. Words alone can't end the spread of dirt — we must sweep it up — ACTION counts. Good Luck. Victory. (Name withheld by request)
